General Transaction Terms

Volans Funding 2007-1, Ltd.

These materials discuss an opportunity to invest in the securities of Volans Funding 2007-1, Ltd. ("Volans") in connection with a \$[1.1] billion collateralized debt obligation transaction. The rated Notes issued by Volans will be secured by a portfolio of structured finance assets with a target WARF of [475], consisting primarily of U.S. dollar-denominated Residential Mortgage Backed Securities ("RMBS"), Commercial Mortgage Backed Securities ("CMBS"), ABS CDO securities and CDS of RMBS/CMBS/ABS, that will be managed by VERO Capital Management, LLC ("VERO").

Trading guidelines:

[5] year Reinvestment Period.

[15]% discretionary trading limit per year.

Credit Risk assets, Credit Improved assets, and any assets with an average life less than [6] months may be sold at any time (do not count toward discretionary trading limit).

Ramp-up Target:

It is anticipated that at least [95]% of the collateral will be purchased by closing; [3] months ramp-up period.

Portfolio Composition:

Max [95]%/Min [75]% CDS assets. Min [5]%/Max [25]% Cash assets. Target Portfolio Composition: [13.2]% Cash assets, [86.8]% CDS assets

Management Fees:

Senior Management Fee: [10] bps.

Subordinate Management Fee: up to [5] bps + [5] bps incentive, subject to equity performance triggers.

Auction Call:

A [monthly] auction call will be conducted beginning in year [8], as long as the redemption proceeds can pay all cumulative interest and principal on the Notes and certain other fees and expenses then outstanding, and subject to the Preferred Shares receiving a minimum IRR as follows: [8]% from the end of year [8] to the end of year [10], [4]% from the end of year [10] to the end of year [12], and [0]% thereafter.

Optional Redemption:

The Notes are redeemable, as long as the redemption proceeds can pay all cumulative interest and principal on the Notes and certain other fees and expenses then outstanding, by the Issuer, at the direction of a Majority of the Preferred Shares, on any Payment Date after [3] years.

Clean-up Call:

An automatic clean-up call will be conducted when the collateral outstanding balance is less than or equal to [10]% of the original ramp-up balance, as long as the redemption proceeds can pay all cumulative interest and principal on the Notes and certain other fees and expenses then outstanding, and subject to the Preferred Shares receiving a minimum IRR of [4]%.

Coverage Tests:

There will be no OC or IC coverage tests.

Sequential Pay Trigger:

During the reinvestment period, if the AAA coverage ratio is less than [112]%, then the reinvestment period will terminate permanently and the deal will amortize sequentially.

After the reinvestment period, if the AAA coverage ratio is less than [125]%, then the deal will amortize sequentially.

BBB/BBB- Turbo Feature:

During the reinvestment period, interest proceeds will be used to pay down the principal pro-rata of the Class D, Class E and Class F Notes in an amount up to [0.80]% of the aggregate original notional amount of such Notes, on each payment date.

VERO Capital Management*

- The Firm: VERO Capital Management ("VERO") is a fixed income alternative asset management firm whose core expertise is structured finance. The firm is dedicated to a thorough, quantitative and transparent investment platform. VERO has invested substantial resources to develop an integrated suite of proprietary analytical systems to support its process driven investment platform.
- Experienced Senior Management: The founding members have been involved in ABS and collateral since the inception of the US ABS market. They have worked together in highly volatile global trading and structuring capital markets. Each member of VERO's portfolio management team brings an average of over 15 years of experience within fixed income, with expertise in one or more of the following areas: structured and leveraged credit, portfolio management, structuring, underwriting, trading and legal.
- CDO Deal Platform Strategy: VERO's CDO investment platform achieves the following: return objectives while balancing downside risk, active dialogue among the firm's portfolio management team, timely ramp of assets subject to portfolio objectives, minimal ratings drift through active management and use of effective hedges. VERO's CDO platform restricts illiquid assets, excludes inappropriate asset classes and minimizes A/L mismatches.
- Detailed Portfolio Construction Process: VERO has a replicable portfolio construction and investment process that includes detailed top down investment strategies, bottom up fundamental credit and collateral analysis, and active granular quantitative analysis that drives incremental and absolute returns.
- Portfolio Optimization and Monitoring: VERO's portfolio selection methodology uses both quantitative and qualitative tools to maximize returns, subject to various downside risk metrics, including VERO's proprietary benchmarks. The profile of each security in each portfolio is analyzed and regularly monitored to evaluate potential exposures to individual and systemic risks. Monte Carlo simulations and scenarios analysis are applied to individual securities and aggregate portfolios to capture potential exposures to idiosyncratic and systemic risks. Thus timely actions can always be undertaken in response to market events.
- Proprietary Analytics: VERO's analytical framework is an integral part of its investment platform that enables systematic analysis and surveillance of investment portfolios. The systems support each key discipline-credit, collateral, trading, markets, structuring, quantitative research, risk, surveillance and legal to provide a comprehensive investment perspective. VERO invested early in systems to ensure a strong fundamental analytical platform and culture.

Eligibility Criteria Notes:

- 1. Every asset must have at least an investment grade rating from at least one of the rating agencies; that is, rated at least BBB- by S&P, or at least BBB- by Fitch, or at least Baa3 by Moody's. In addition, every asset must have a notched "Moody's Rating" of at least Ba3.
- 2. SPV Jurisdictions: Caymans, Bahamas, Bermuda, Netherlands, Channel Islands or other jurisdiction that is commonly used as the place of organization of SPVs that issue ABS, that generally impose no or nominal tax on such SPV.
- 3. Each asset in this category at the time of acquisition must be rated at least BBB- by S&P, or at least BBB- by Fitch, or at least Baa3 by Moody's. Each asset must have been downgraded no more than 2 notches from original issuance ratings by either S&P or Moody's, and a maximum of one time each by S&P and Moody's.
- 4(a). This includes any asset that is rated at least AA- by S&P, or at least AA- by Fitch, or at least Aa3 by Moody's.
- 4(b). This includes any asset that is rated A+, A or A- by S&P, or rated A+, A or A- by Fitch, or rated A1, A2 or A3 by Moody's. However, it does not include any split rated asset that satisfies the rating requirements in clause (a) above (in which case (a) supersedes (b)).
- 4(c). This includes any asset that is rated BBB+, BBB or BBB- by S&P, or rated BBB+, BBB or BBB- by Fitch, or rated Baa1, Baa2 or Baa3 by Moody's. However, it does not include any split rated asset that satisfies the rating requirements in clause (a) or (b) above (in which case (a) supersedes (b), and (b) supersedes (c)).
- 5. With up to [5]% exception.
- 6. Each asset in this category must be rated at least BBB by S&P, or at least BBB by Fitch, or at least Baa2 by Moody's. Of the [15]% bucket, at least [7.5]% must be rated at least A- by S&P, or at least A- by Fitch, or at least A3 by Moody's.
- 7. CRE CDOs count towards the [15]% CMBS bucket, and not towards the [10]% ABS CDO bucket. Of the [7.5]% bucket, Max [5.0]% can be assets that are not rated at least A- by S&P, or at least A- by Fitch, or at least A3 by Moody's.
- 8. Each asset in this category must be rated at least BBB by S&P (if rated by S&P), and at least BBB by Fitch (if rated by Fitch), and at least Baa2 by Moody's (if rated by Moody's). Of the [10]% bucket, at least [7.5]% must be rated at least BBB+ by S&P, or at least BBB+ by Fitch, or at least Baa1 by Moody's.
- 9. Counts towards the [10]% ABS CDO bucket. Each asset in this category must be rated at least A by S&P (if rated by S&P), and at least A by Fitch (if rated by Fitch), and at least A2 by Moody's (if rated by Moody's).
- 10. Each asset in these categories must be rated at least BBB by S&P, or at least BBB by Fitch, or at least Baa2 by Moody's.
- 11. Each asset in these categories (other than ABX or unless otherwise specified) must be rated at least A- by S&P, or at least A- by Fitch, or at least A3 by Moody's.
- 12. For the avoidance of doubt, Neg Am is not classified as a PIK security.
